

Adhesive Flat Cable Fastener

Uses a crimp over cable fastener. The cable fastener is fastened with a roofing adhesive or cement to eliminate any penetrations to the membrane.

6101 Copper flat cable fastener **WT 1.0 oz (28.3 g)**

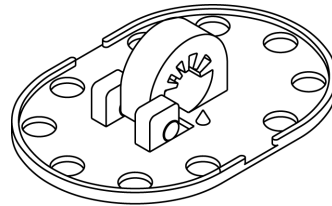

6101A Aluminum flat cable fastener **WT 0.5 oz (14.2 g)**

**Polymer Adhesive Cable Fastener**

Fastened with a roofing adhesive or cement to eliminate any roof penetrations. The polymer cable fastener uses pressure snap to lock the hoop firmly around the conductor.

6111 Polymer cable fastener for copper **WT 0.5 oz (14.2 g)**

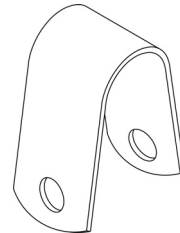

6111A Polymer cable fastener for aluminum **WT 0.5 oz (14.2 g)**

**Standard Cable Clip**

Used with a single nail or screw to fasten conductor sizes standard through 2/0.

6121 Standard copper cable clip **WT 110 pc/lb (50 pc/kg)**

6121A Standard aluminum cable clip **WT 220 pc/lb (100 pc/kg)**

**Loop Cable Fastener**

Size is 5/8" width and supports up to a 1/4" bolt or screw. The loop cable fastener fits standard through 2/0 conductor.

6131 Copper cable fastener **WT 35 pc/lb (16 pc/kg)**

6131A Aluminum cable fastener **WT 110 pc/lb (50 pc/kg)**
