

Grounding Equipment

Copper Clad Steel Ground Terminals

Made with HR steel core and a copper clad exterior to provide increased conductivity and corrosion resistance.

- 5001** 5/8" plain ends, 10'-0" long **WT 9.50 lbs (4.31 kg)**
- 5011** 5/8" sectional, 10'-0" long **WT 9.50 lbs (4.31 kg)**
- 5021** 3/4" plain ends, 10'-0" long **WT 12.00 lbs (5.44 kg)**
- 5031** 3/4" sectional, 10'-0" long **WT 12.00 lbs (5.44 kg)**

Stainless Steel Ground Terminals

Made of 300 series solid stainless steel to provide increased corrosion resistance for acidic soil conditions.

- 5001S** 5/8" plain ends, 10'-0" long **WT 10.50 lbs (4.76 kg)**
- 5011S** 5/8" sectional, 10'-0" long **WT 10.50 lbs (4.76 kg)**
- 5021S** 3/4" plain ends, 10'-0" long **WT 15.00 lbs (6.80 kg)**
- 5031S** 3/4" sectional, 10'-0" long **WT 15.00 lbs (6.80 kg)**

Copper Ground Plates

20 gauge copper sheet with a mechanical conductor clamp.

- 5101** 18" X 18" copper ground plate **WT 3.50 lbs (1.59 kg)**
- 5111** 24" X 24" copper ground plate **WT 6.00 lbs (2.72 kg)**
- 5121** 36" X 36" copper ground plate **WT 13.50 lbs (6.12 kg)**

.125" Solid Copper Plate – Plain

- 5150** 12" X 12" copper ground plate **WT 5.80 lbs (2.63 kg)**
- 5155** 18" X 18" copper ground plate **WT 13.00 lbs (5.89 kg)**
- 5160** 16" X 36" copper ground plate **WT 23.20 lbs (10.53 kg)**
- 5165** 36" X 36" copper ground plate **WT 52.20 lbs (23.67 kg)**

.250" Solid Copper Plate – Plain

- 5151** 12" X 12" copper ground plate **WT 11.60 lbs (5.26 kg)**
- 5156** 18" X 18" copper ground plate **WT 26.00 lbs (11.79 kg)**
- 5161** 16" X 36" copper ground plate **WT 46.40 lbs (21.04 kg)**
- 5166** 36" X 36" copper ground plate **WT 104.40 lbs (47.35 kg)**

Note: Pre-exothermically welded conductors are available. Please call ALLTEC Corporation for custom sizes and prices.
